

# NEWS4ALL

All the updated information about what is happening in our application.

MARCH 2017

## Check out our news!

### IMPROVEMENTS

A new version of Mapp4all is now available for Android, and soon on iOS.

The two nearest *Premium* points of interest are displayed in the main screen, as well as the two most accessible ones.

The search can also be done by name or by address.

Finally, the way of registering is expanded through Facebook, Email or Google with a more complete record.

### UPLOADED WEB

Visit our new website at [www.mapp4all.com](http://www.mapp4all.com), where all the information of our application and all the news related to us can be found.

### AVAILABLE IN 9 LANGUAGES

Both the application and the website are available in 9 languages. These are: Spanish, Catalan, English, French, German, Portuguese, Italian, Russian and Chinese.

### ADDITIONAL INFORMATION

On the map it can be seen the accessibility icons of each establishment.

The establishment card can include up to 4 images of the accessibility of the store.

A scoring system is added where users can make assessments of the level of accessibility.

Booking websites can be accessed from the application.

### COMING SOON

There are more than 52.000 digitalized establishments in the city of Barcelona. What will be next? Our closest objective is to reach Madrid and Sant Cugat, where we have already begun talks to digitize them.

### NEW PREMIUM CUSTOMERS

Many of you already trust in us. Thank you to all of you, especially the last ones who have joined this group of dreamers for the sake of society and accessibility. Mapp4all has all your support.
